Mahfuzur Rahman Saif

Python Developer | Django | REST APIs | PostgreSQL | Docker | Redis

Mirpur, Dhaka, Bangladesh — +8801626478828 — mahfujurrahmansaif@gmail.com

LinkedIn — GitHub — LeetCode — Codeforces — Portfolio

Professional Summary

Backend-focused **Python Developer** with hands-on experience building production-ready web applications using **Python, Django, and Django REST Framework**. Experienced in developing secure **REST APIs**, implementing authentication and **role-based access control**, optimizing **PostgreSQL queries**, and integrating third-party services. Hands-on experience with **Redis, Celery, Docker, Git, React, and Nginx**, with a strong foundation in backend engineering, API development, database optimization, and scalable web application development. Familiar with **CI/CD pipelines using GitHub Actions** for automated testing and deployment workflows.

Technical Skills

Languages: Python, C, C++

Backend: Django, Django REST Framework (DRF), REST APIs, JWT, Redis, Celery

Database: MySQL,ostgreSQL, SQLite

Frontend: React, JavaScript, TypeScript, Tailwind CSS, HTML, CSS

DevOps & Tools: Linux, Docker, Nginx, Git, GitHub, GitHub Actions, CI/CD, Server, VS Code

Testing, AI Tools & Integration: Postman, Swagger, Cursor, Codex, Gemini, Stripe, SSLCommerz

Computer Science: Data Structures & Algorithms, Object-Oriented Programming (OOP)

Professional Experience

Softvence Agency **Jan 2026 – Jun 2026**

Python Developer *Dhaka, Bangladesh*

- Developed and maintained backend services using **Python, Django, and Django REST Framework**, supporting production-ready web applications.
- Built secure **REST APIs** with authentication and **role-based access control** to support protected application workflows.
- Optimized **PostgreSQL queries and database indexing** to improve backend performance and scalability.
- Integrated third-party services and resolved production backend issues, improving the reliability of external data integrations.
- Contributed to deployment workflows and backend stability improvements.
- Collaborated with frontend developers to deliver production-ready application features.

Projects

AI Voice Receptionist ***Backend System*** | ***Live***

Python, Django, Django REST Framework, PostgreSQL, Redis, Celery

- Developed backend services for an **AI-driven call management platform**, supporting call-related application workflows.
- Built **20+ secure REST APIs** with authentication and **role-based access control** to support platform functionality.
- Designed call-event ingestion pipelines to process payloads received from external AI systems.
- Implemented **Redis caching** and **Celery-based asynchronous task processing** for backend workloads.
- Designed scalable database models for call-related entities.

VirtualBazar ***Freelance Marketplace*** | ***Live*** | *Frontend* | *Backend*

Python, Django, Django REST Framework, React, JWT, PostgreSQL

- Developed a freelance marketplace using **Django and React**, integrating frontend functionality with backend services.
- Built **15+ REST APIs** with JWT authentication to support marketplace workflows.
- Integrated payment gateway functionality into the platform.
- Improved backend performance and API efficiency.

PhiMart ***E-commerce Platform*** | ***Live*** | *Frontend + Backend*

Python, Django, React, REST APIs, PostgreSQL, JavaScript

- Built a full-stack e-commerce platform using **Django and React**.
- Optimized product-filtering APIs for large datasets to improve backend efficiency.
- Improved frontend performance through reusable component architecture.

Education

Bangladesh University of Business and Technology (BUBT) **2024 – 2027**
B.Sc. in Computer Science *Dhaka, Bangladesh*

Feni Computer Institute **2019 – 2023**
Diploma in Computer Science and Technology *Feni, Bangladesh*

Certifications

- CSE Fundamentals with Phitron — 2024
- Mobile App Development with Dart & Flutter
- International Leadership Competition

Languages

Bengali: Native **English:** Intermediate
